

Nesstar Cubes: The cube publishing process using old NSDstat files.

January 2011

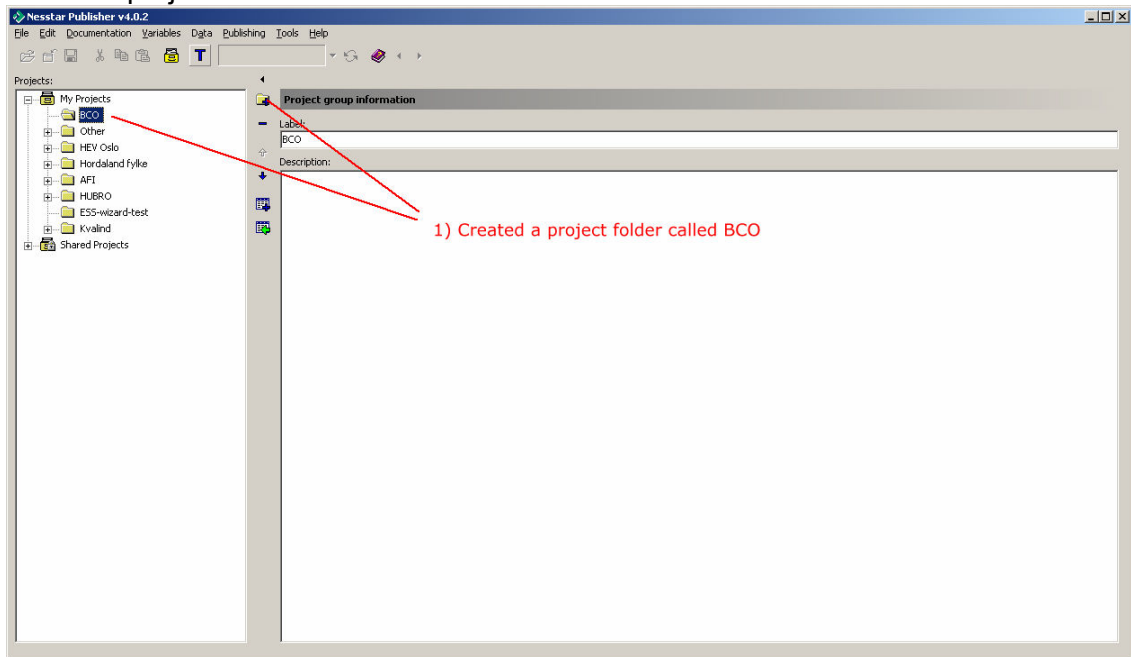

This step-by-step guide provides information on how to publish old .nsdstat-files as cubes (tables) using the Nesstar Publisher v4.0 . Published cubes are available to view via Nesstar WebView.

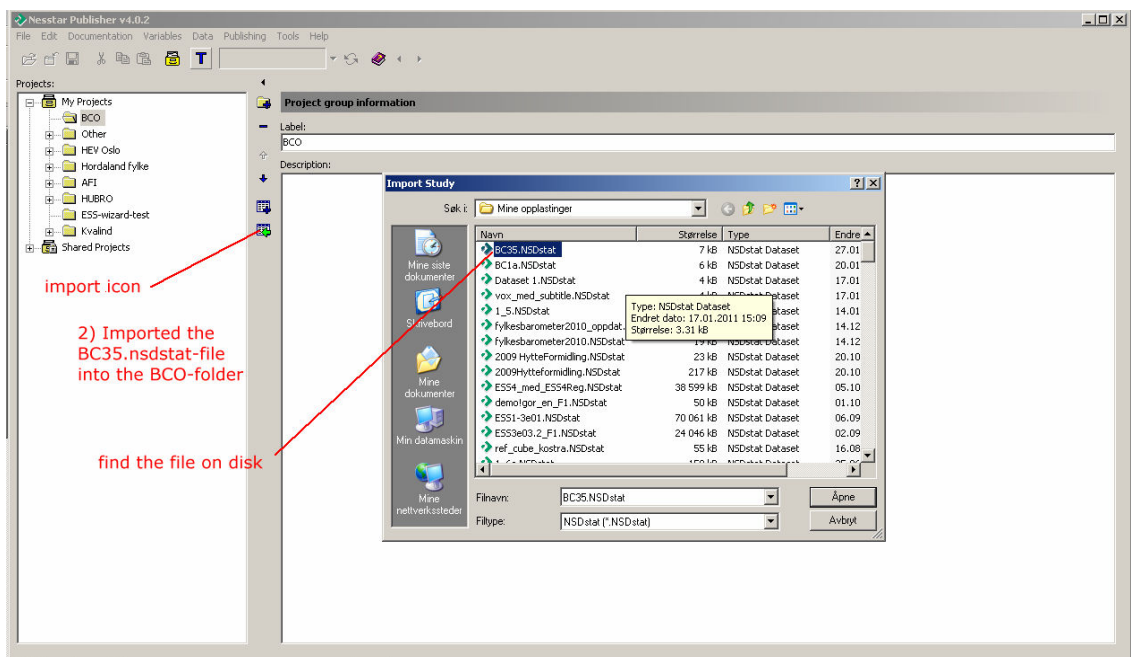

The layout of the default cube is specified under the Cube Setup-node.

To publish cubes you need to:

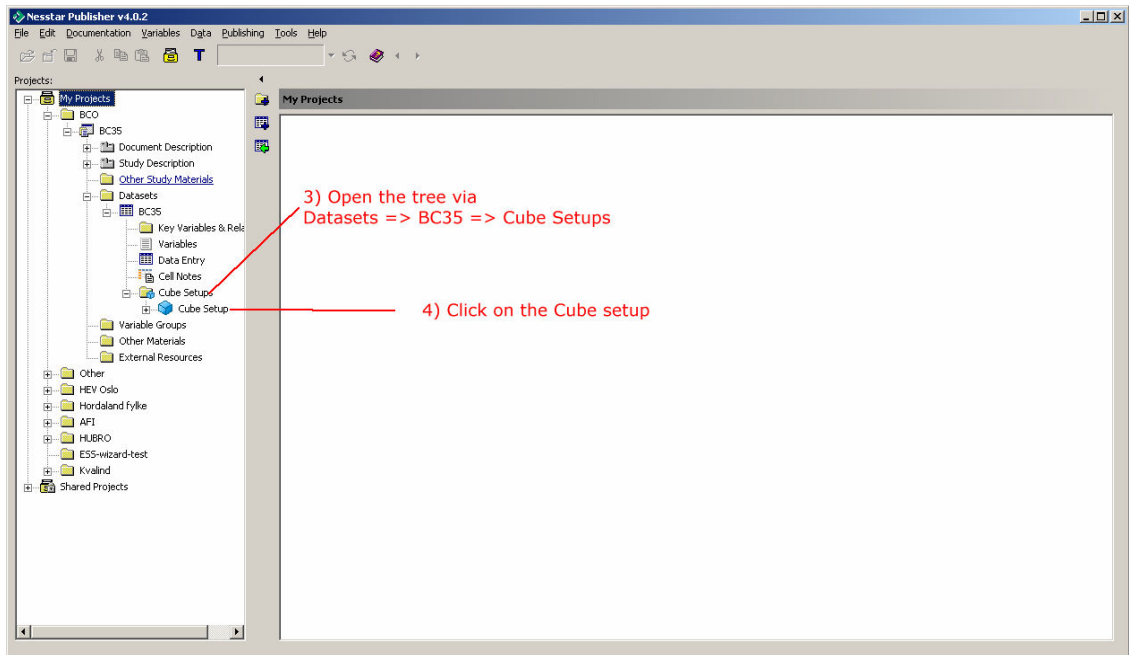

1. Create a project folder

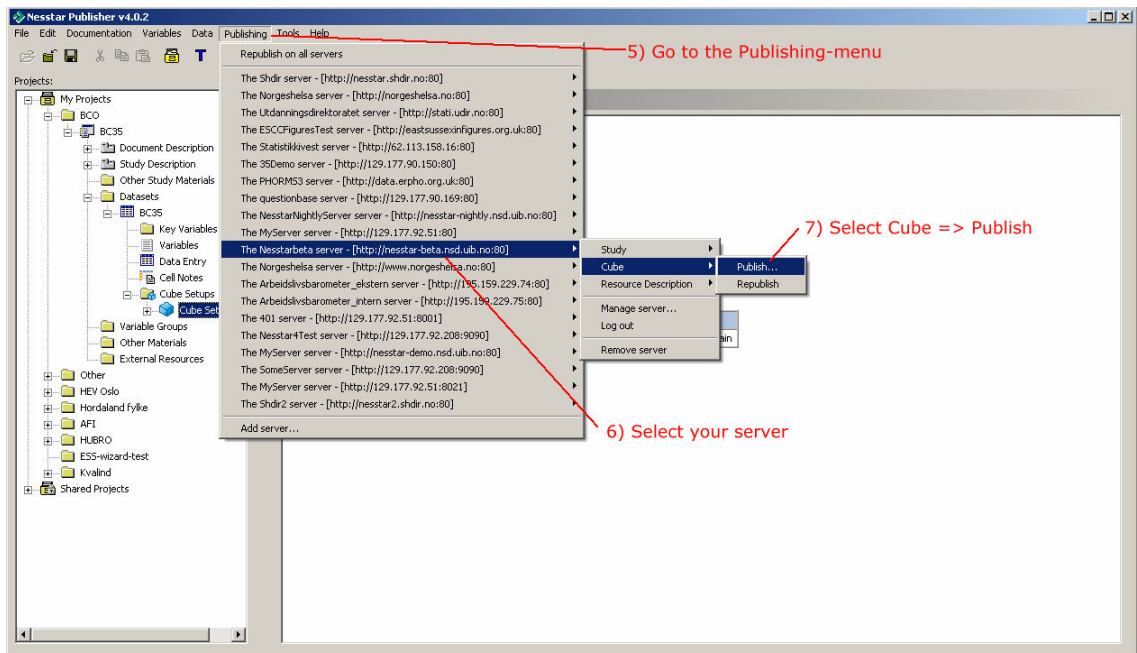

2. Import the old .NSDstat file

3. Open the tree via Datasets => <your-NSDstat-file> => Cube Setups
4. Select Cube setup

5. Go to Publishing menu
6. Select your server
7. Select Cube to publish and click 'Publish'.
